ADVERTISEMENT ANNOUNCEMENT

### Technical Excellence Award for Cropaid Natural Plant Antifreeze

**CROPAID** Natural Plant Antifreeze®, an innovative natural product that improves susceptible plants' resistance to cold and frost, won the coveted Technical Excellence Award at the Four Oaks Show on Sept 5.

The presentation was made by Matthew Appleby, deputy editor of Horticulture Week to Cropaid Director Aydin Tanseli.

Following the presentation, Aydin Tanseli said, "ADAS trials have demonstrated that Cropaid NPA has potential to decrease the risk of economic loss through frost damage by

decreasing damage to flowers and foliage when frost occurs." Trials conducted on potato and strawberry plants showed that those treated with Cropaid Natural Plant Antifreeze® had improved cold tolerance and increased vigour.
